WORK EXPERIENCE

Capgemini

Hyderabad, India, Jun 2021 – Dec 2022

Software Engineer

- Optimized enterprise-level solutions by developing SAP RICEF components using ABAP and HANA DB, streamlining business processes.
- Delivered actionable insights by leveraging Power BI and Azure ML for data visualization and analysis.
- Enhanced data accuracy through migration, transformation, and visualization tasks.
- Improved team efficiency by 25% through knowledge transfer sessions and adherence to Agile practices.

Jukshio

Hyderabad, India, Jul 2020 – Jun 2021

ML Research Engineer

- Built and deployed machine learning models for facial recognition using TensorFlow and OpenCV, reducing false positives by 3%.
- Boosted model accuracy by 7% through data analysis using Pandas, Matplotlib, and NumPy.
- Optimized model training pipelines, improving workflow efficiency and inference speed.
- Implemented AI-driven solutions, contributing to startup growth in the computer vision domain.

3IceCubes

Remote, May 2020 – Aug 2020

Full-Stack Developer Intern

- Designed and developed a responsive web application with MySQL back-end and JavaScript for enhanced front-end functionality.
- Created dynamic UI components with HTML, CSS, and JavaScript, improving user interactions and performance.
- Integrated Python back-end logic to handle complex functionalities and optimize application efficiency.
- Collaborated with senior developers to adopt best practices, ensuring seamless user experience and system performance.

EDUCATION

- Master of Science in Computer Science

State University of New York, Utica-NY | Jan 2023 – Dec 2024

GPA: 3.40/4.00

Focus: Data Engineering, Machine Learning, Artificial Intelligence, Applied Data Science, Networking, Concurrency & Threading in GPU.

- Bachelor of Technology in Electrical & Electronics Engineering

Mahatma Gandhi Institute of Technology, Hyderabad, India | Aug 2016 – May 2020

GPA: 7.5/10

Focus: Data Structures & Algorithms, Microprocessors, Power Electronics.

SKILLS

- Programming Languages: Python, SQL, JavaScript, Golang(basic)
- Web Development: Django, Flask, HTML, CSS, Bootstrap
- Data Management: MySQL, MongoDB, SQLite, SAP HANA, Redis
- Cloud & DevOps: AWS (EC2, S3, Lambda), Azure, Git
- Data Science & AI: TensorFlow, PyTorch, Keras, scikit-learn, Pandas, NumPy
- Visualization Tools: Power BI, Tableau, Matplotlib, Seaborn, Plotly
- Methodologies: Agile, Scrum, Waterfall
- Others: Unit Testing, RESTful APIs, MLOps, SAP ABAP

PROJECTS (Full Description Available here: <https://github.com/venkateshtantravahi>)

- **SQLite Playground (Spring 2024):** Developed a web-based SQL editor with advanced features like syntax highlighting and data visualization tools, using Python and Streamlit.
- **Data Science Portfolio (Ongoing):** Created a GitHub repository showcasing projects like Hate Speech Detection with DeBERTa and COVID-19 Trend Forecasting using Prophet.
- **Rain in Australia (Winter 2023):** Conducted climate analysis using LIME and SHAP to interpret weather patterns, leveraging machine learning techniques and predictive analytics.
